

## **Tribute/Fightback Funds**

The objective for Tribute Funds is to offer a means for people to come together to celebrate the life of someone special through meaningful remembrance.

A Fightback Fund has the same options but is in honour of someone living with MND.

All Tribute Funds start out as offline Funds, but with the free option of having an individual website whenever they wish. This is similar to a JustGiving memorial page and by adding a website you provide more capability for online donations.

All our Tribute Fund supporters (online and offline) receive a twice a year fundraising update for their Fund, together with a supporter newsletter. In addition, Tribute Fund Guardians also receive a personal, annual Anniversary letter-card acknowledging the part their Fund has played since its creation and again providing the latest fundraising total. Any supporter can also contact us at any time to request the fundraising total or ask about any aspect of the Association's work.

Every month each online Tribute Fund Guardian with the audited fundraising value for their Fund so they can display it on their website if they wish. By this means an accurate figure (which includes ALL types of donations received, across a range of payment methods, not just online) is very regularly advised to our online Tribute Fund supporters.

A Tribute/Fightback fund can also collect donations via an Online Giving page. In most cases an online giving page is more suitable for a fundraiser.
